CLEAR QUALITY.
CLEAR EXCELLENCE.
CLEAR SATISFACTION.
CLEAR VALUE.

A CLEAR CHOICE...

I founded St Helens Windows in 1991 with just £3,000 and a clear vision: to provide quality home improvements with integrity and a customer-first approach. Since then, we've grown to become one of the longest-established and most trusted home improvement companies in the North West.

What's been the driving force behind our success? Quite simply, we love what we do. From day one, it's always been about the customer: understanding their needs and delivering solutions with passion, honesty, and care.

Now, over 30 years later, that same commitment still guides everything we do. Thanks to our loyal customers and our incredible team, we continue to deliver outstanding service and quality products that homeowners can be proud of.

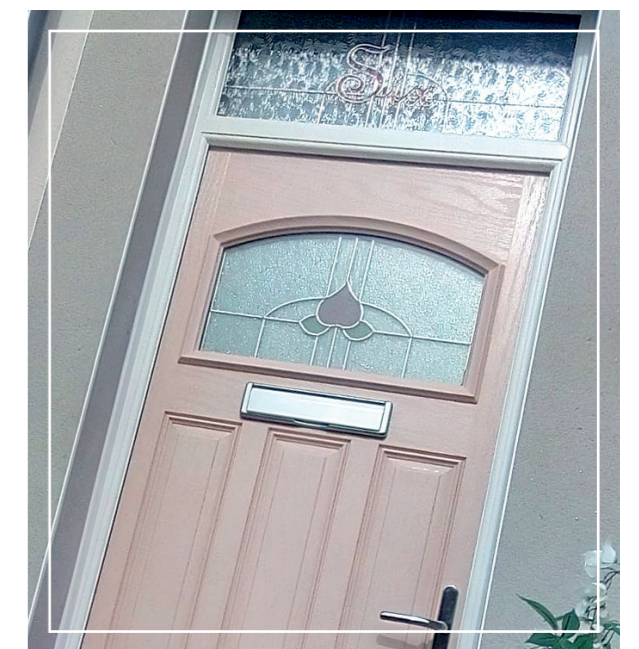

Our mission has always been clear: to delight our customers with every home improvement project. And with the help of our dedicated staff, we remain focused on exceeding expectations, every step of the way.

Managing Director
Gary Burgess

Excellent customer service and great quality windows. I needed fitting done by a certain date and they were very accommodating. On time for the appointment and window fitted quickly with minimal fuss, lovely job done and would definitely recommend. Thank you!

Rachel Kelly

MAKE YOUR NEW DOOR THE PERFECT FEATURE...

At St Helens Windows, our composite doors offer a superior blend of security, strength, style, and colour options, making them an ideal choice for homeowners looking to upgrade their entrance with both performance and design in mind.

Unlike standard doors made from a single material, our composite doors are manufactured using multiple high-quality materials. This layered construction significantly enhances durability, insulation, and security, helping to protect your home against potential threats. In comparison, choosing doors made from less robust materials may leave your property more vulnerable.

We also offer additional customisation options such as side panels and fanlights, available across our composite door range. These features not only allow more natural light into your home but also elevate the overall appearance of your entrance.

While composite doors do carry a slightly higher cost than traditional uPVC doors, the benefits speak for themselves. You're investing in long-term quality, safety, and thermal efficiency, providing far greater value over time.

“

Excellent service. A good quality product and excellent fitters... Would not hesitate to use them again and plan to do so...

Glenice Bendib

”

DON'T COMPROMISE, GO COMPOSITE

We don't believe in compromising on quality. We've brought together materials to give you the very best in strength, easy maintenance, security, and weather resistance. Oh – and great looks as well.

Behind that rather scientific-sounding name, you'll find the latest technology and design in doors. And when you're indoors you'll enjoy loads of style, strength and security. And it's not just stylish, it's incredibly strong too.

Our composite doors are built with a high-performance structural frame and cutting-edge hardware, delivering outstanding strength and enhanced security you can rely on. The tough glass-reinforced plastic (GRP) finish is designed to withstand whatever the British weather throws at it, keeping your home safe, secure, and looking great all year round.

With a wide selection of designs and colours to choose from, there's something to suit every home, whether you prefer a classic look or something more contemporary. Take your pick from three elegant finishes of door furniture to add that perfect finishing touch, and explore our beautiful range of decorative glass options to create a truly personalised entrance.

INSIDE EXAMPLE

DON'T COMPROMISE, GO COMPOSITE

QUALITY YOU EXPECT

We have the best product in the market by far. Our superior GRP doors have a high impact-resistant skin with a beautiful woodgrain finish, which gives the door its prestigious, authentic and premium aesthetic.

ENGINEERED WOOD

For improved stability.

FOAM-FILLED CORE

The rising cost of energy bills and the impact on the environment mean we all want to keep our consumption to a minimum by keeping warmth in and draughts out. When compared to a solid timber core composite door (48mm) and a timber panelled door (44mm), calculations prove that our composite door is 50% more thermally efficient than the alternatives.

DECORATIVE GLASS

Triple-glazed and laminated as standard 24mm glass units for enhanced security and peace of mind.

WATER-RESISTANT COMPOSITES

Water-resistant polymer composite rails help keep water absorption at bay, which helps prevent a bowed door; often associated with timber core alternatives.

REINFORCED CORE

The reinforced central board gives you extra reassurance that your door is both solid and secure, and has earned our door its reputable 'Secured by Design' status.

Brilliant customer service from quote to installation. The aftercare has also been fantastic, Graham, the maintenance technician, is great. Jordan has been super helpful throughout the process and we are very happy with our new front door!! Highly recommend this company and will be using them for future jobs.

Sophie Connor

COMPOSITE DOOR COLOUR RANGE

Our doors are designed to make a lasting impression. With a wide selection of standard and premium colour options, you can choose a finish that perfectly complements your home's style, whether you're looking for something classic, contemporary, or truly unique. Each door is available in a bold, eye-catching finish, featuring either a rich woodgrain texture for a traditional look or a sleek, smooth skin for a more modern aesthetic. These high-quality

finishes not only enhance the visual appeal but are also built to last, resisting fading, peeling, and everyday wear.

Whether you want a timeless white, a statement-making red, or a deep anthracite grey, our colour palette offers something for every taste. And with premium colour options, you can enjoy a more bespoke feel that helps your door truly stand out from the crowd.

ANTHRACITE GREY

DISTANT BLUE

WINE RED

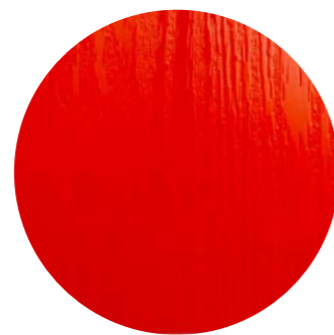

CHARTWELL GREEN

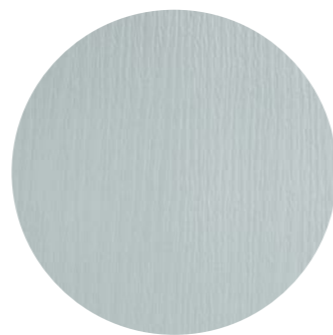

CREAM

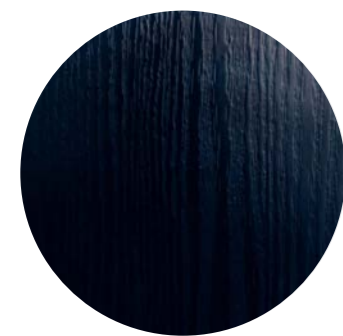

TURQUOISE BLUE

TRAFFIC RED

DUCK EGG

STEEL BLUE

RUBY RED

COLZA YELLOW

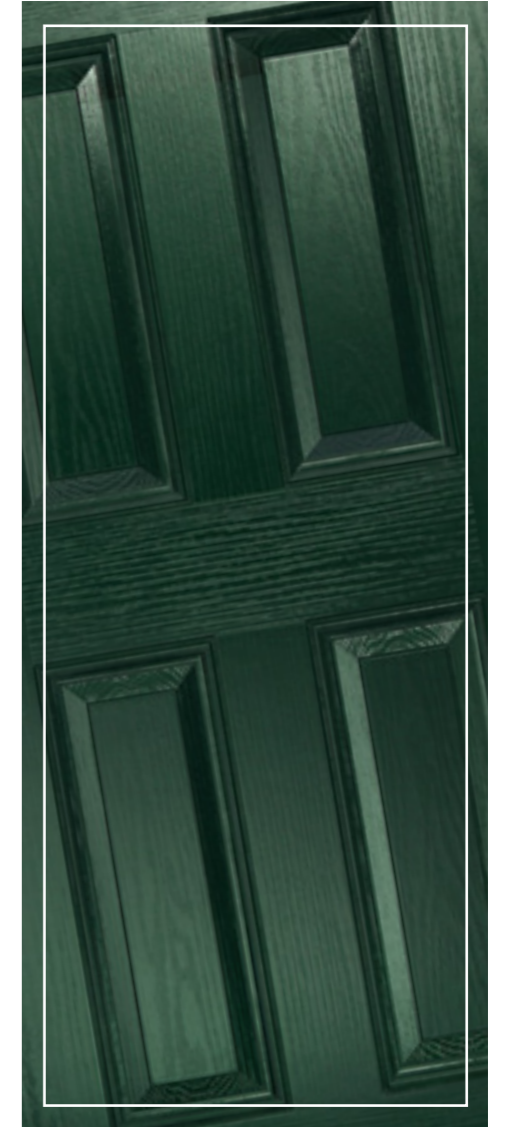

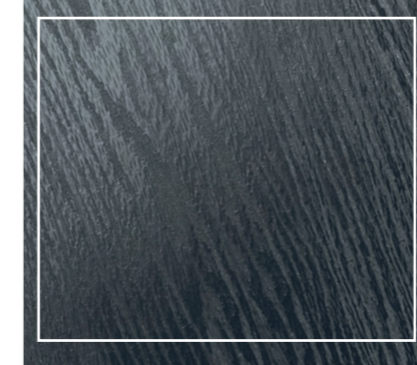

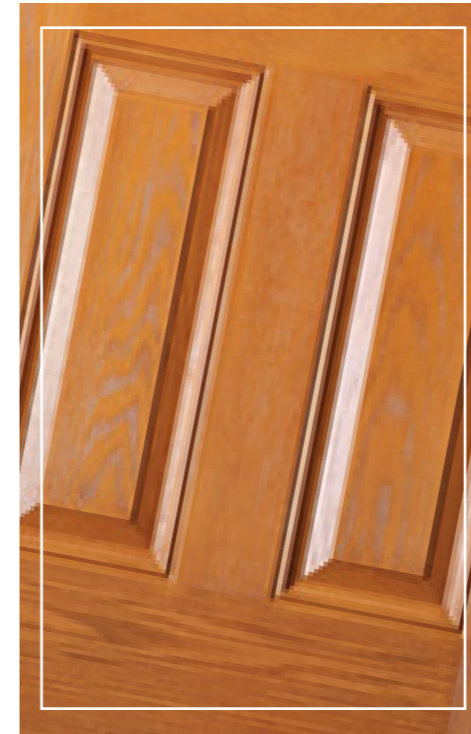

BUCKINGHAM GREY

Our composite doors are also available in a wide range of RAL colours, allowing homeowners to coordinate their door with other features of their home, such as garage doors, window frames, or external trims. This creates a more coherent, customised appearance that matches

the overall style of your home. Our composite doors, with their long-lasting construction, outstanding thermal efficiency, and low maintenance requirements, offer both practical performance and a bespoke, attractive finish that complements any property.

Choose from a deep woodgrain texture for a classic, traditional appearance or a smooth, sleek surface for a clean, contemporary feel...

A CLEAR CHOICE

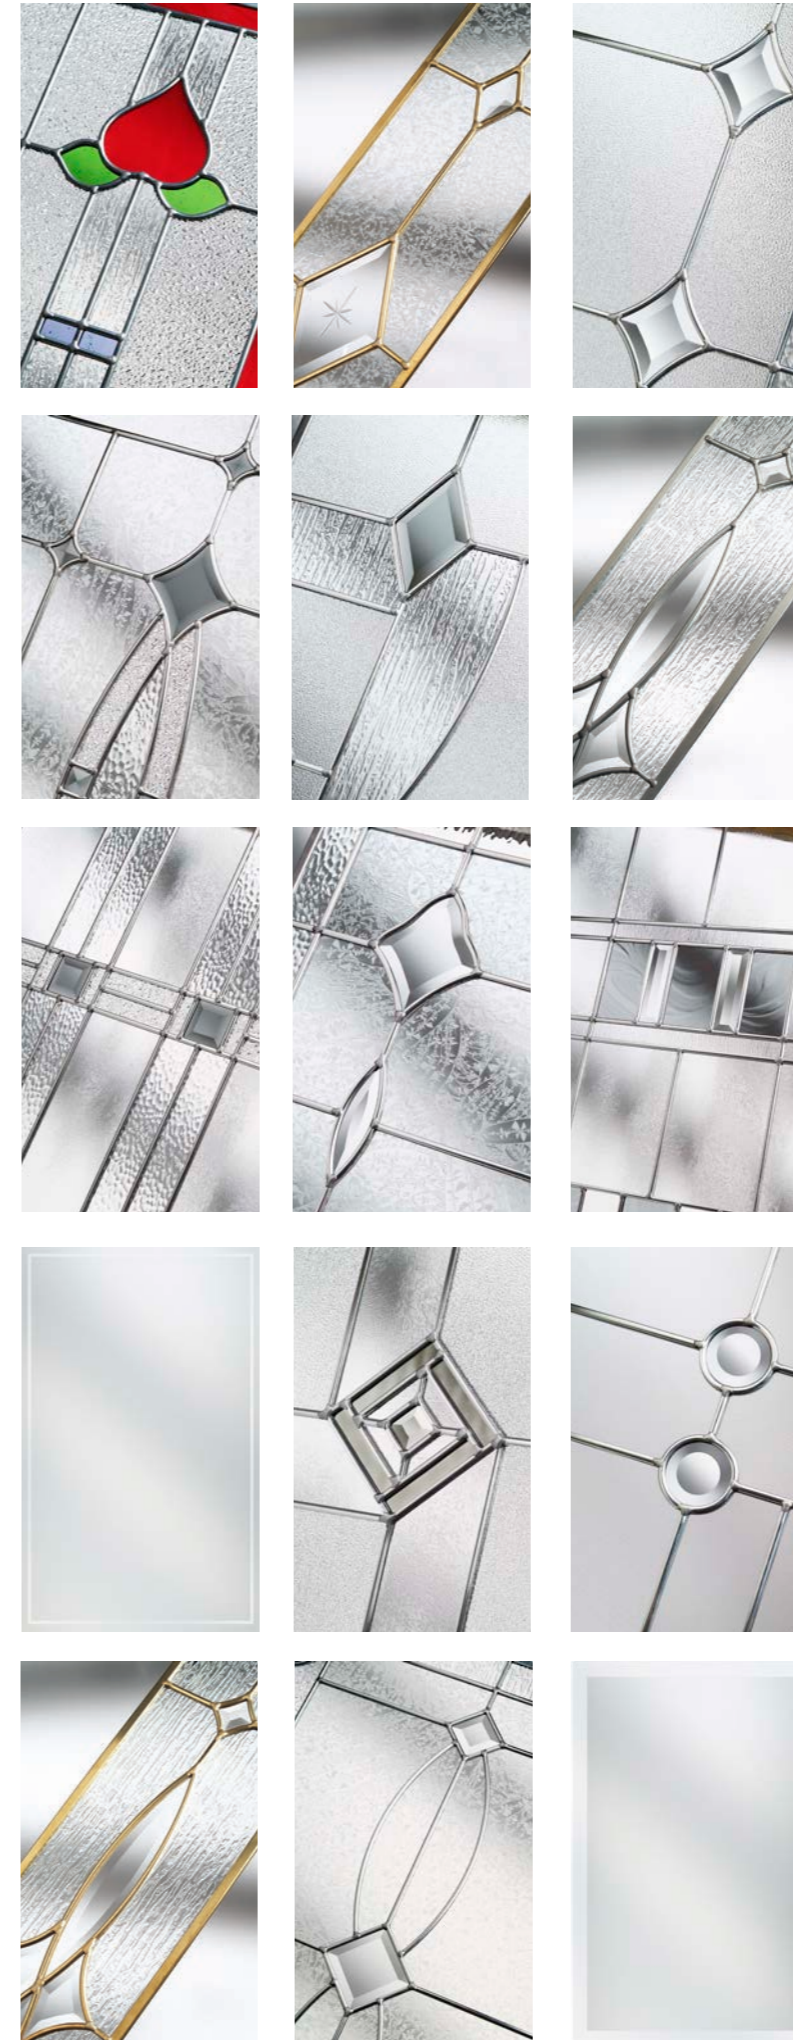

We have a massive selection of glass options with lots of designs. This allows you to add a personal touch to your composite or uPVC doors, windows or even your conservatory. Our wide range of decorative glass styles will add an elegant and luxurious look.

Be creative when it comes to new glass patterns, making your glass stand out is a great idea.

Alternatively you can choose a glass design which best suits your home and current decor.

Our designs work great with any traditional or modern home. Make a real impact to any window or door with our fantastic selection.

For more information please speak to a member of our glass specialist team today.

What truly sets our doors apart is the exceptional quality and exclusivity of our decorative glass range. Unlike anything you'll find elsewhere, our glass designs are unique to Distinction Doors and crafted to elevate both the appearance and performance of your entrance.

Every decorative glass unit is triple glazed and laminated as standard, offering not only stunning aesthetics but also added security, durability, and insulation. These premium features perfectly complement the superior construction of our doors, creating an entrance that performs as beautifully as it looks.

For those seeking a more traditional glazing option, our Chatsworth and Wentworth designs are available in double-glazed formats—each crafted with the same attention to detail and commitment to quality.

And for something truly bespoke, our Esprit Collection takes customisation to the next level. Every Esprit door includes glass that has been individually designed to complement the unique character of that specific door style, ensuring a harmonious and one-of-a-kind finish.

With an extensive range of colours, styles, and glass options, the design possibilities are virtually endless.

Ready to find your perfect match? Explore every available door, colour, and glass combination in stunning detail, all from the comfort of your own home.

THE FINISHING TOUCHES

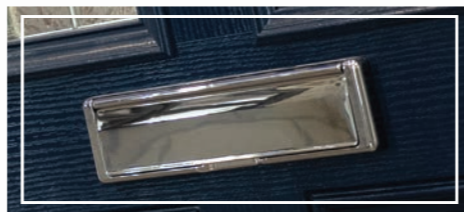

We have a great selection of exterior door handles to complement any style of door, we can help give your doors a stylish finishing touch.

We can supply handles in a choice of finishes, including brass, chrome and many more. Plus they are available in an assortment of designs including contemporary to traditional.

Simply ask a member of our team for help on choosing the right finishing for your new door.

Our fantastic new external front and back door collection includes a wide range of Solid Core doors and composite doors. With styles ranging for the Contemporary, traditional, designer and cottage range, we offer a variety of styles.

Using state-of-the-art materials, and a vast selection of styles and colours plus a great range of door furniture and choice of decorative glass. There is no better time to purchase that new front or back door.

A DOOR AS INDIVIDUAL AS YOU...

We provide a wide range of stunning and elegant glazed uPVC doors whilst taking great pride in helping our customers choose the right uPVC doors for their home.

Here at St Helens Windows we know the importance of delivering with high quality products such as our fantastic range of uPVC doors. This gives us the opportunity to offer you uPVC doors at competitive prices.

Choose one of the UK's best custom made double glazed uPVC doors company and rest assured that we have the right uPVC door for you and your home.

UPVC DOORS

HIGH STANDARD UPVC DOORS

We recognise that selecting the proper uPVC door can be difficult, especially with so many types, colours, and design options available. That's why we're here to help, providing experienced advice and a wide range of options

to help you choose the best match for your house. St Helens Windows manufactures only the highest quality uPVC doors. To ensure long-term performance, each door features a durable, energy-efficient profile and a strong frame.

We don't skimp on security either, every uPVC door includes innovative locking mechanisms and high-quality hardware as standard, providing you peace of mind day and night.

To complete the style, we have a vast selection of attractive side panels that will effortlessly complement your door. Whether you want seclusion, natural light, or a decorative touch, our extensive selection of glass patterns may be fitted to your home's personality and current décor.

Before making a selection, why not browse our stunning uPVC door collection and get inspired? Our courteous staff is available to answer any questions you may have and assist you in discovering our latest offerings.

Contact us today to learn more about our comprehensive uPVC door collection and how we can help change your house with quality, style, and security.

BIFOLD DOORS

CREATE A STYLISH LIVING SPACE...

Using the trusted 'easy glide' gearing systems for long lasting easy use, our doors also benefit from ultra-security with multi-point locking which offers the most effective secure locking systems.

Our bi-folding doors are crafted from aluminium, one of the world's most sustainable and versatile building materials. Lightweight yet incredibly strong, aluminium enhances the durability and security of your doors while offering a sleek, modern finish. When choosing the right bi-folding door for your home, thermal efficiency and acoustic performance are essential considerations, and our doors are designed to deliver on both.

Our bi-folding doors have the highest thermal performance and exceed current building regulations, parts and components supplied by one of the UK's leading aluminium specialist ALUK.

“

St Helens Windows are lovely. Really good value and the team are great...

Anne-Marie Colton

”

OUR PATIO & FRENCH DOORS

Our patio doors are available in a wide range of styles, finishes, and opening options, giving you the flexibility to find the perfect fit for your home. Designed with both aesthetics and practicality in mind, patio doors are an ideal space-saving solution. Their sliding mechanism allows for smooth operation without encroaching on your indoor or outdoor space, perfect for areas where swing clearance is limited.

Looking to add elegance and charm? Our beautiful range of French doors can help you create a stylish and airy living space. Whether you want to bring in more natural light, improve access to your garden, or simply enhance your interior, French doors are a timeless choice. Rooted in the classic "casement door" design from France, French doors, also known as French windows, feature double-leaf panels with large glass panes, offering a seamless connection between your indoor and outdoor spaces.

MULTIPOINT LOCKS

The Ingenious Multipoint Door Lock range has been designed in the UK by our highly experienced and dynamic in house design team. The end users requirements were at the forefront of our designer's minds during the design process creating a lock ideal for use on a modern, security conscious home.

To ensure further security for the occupier, all Ingenious Multipoint locks come with a dual follower as standard to allow twin spindle function which avoids unauthorised entry when the lock is in the latched position.

The Ingenious Multipoint Lock range has been designed to meet and comply with the latest industry standards whilst retaining an aesthetically appealing appearance.

The Ingenious Multipoint Lock range has a wide variety of lock options to cover any door

material, configuration and application. The range has been designed and developed to utilise the latest in high specification materials. The central gear box is the locks engine and has been developed using state of the art design techniques to ensure the locks function is extremely robust whilst demonstrating an effortless feel in operation.

Our multipoint Locks come with a 10 year 'Fit and Forget' guarantee for consumer peace of mind. (Terms & conditions apply) The Ingenious range of Multipoint locks have been tested in accordance with the latest industrial standards for functional endurance, security, weather performance and corrosion resistance.

The multi-point lock range offers complete peace of mind on both security and reliability - our range has been tested extensively to the latest market standards.

The Ingenious multi-point lock range is designed to comply with the UK police's flagship initiative SBD, supporting the principles of "designing out crime".

INTELLIGENTLY DESIGNED MULTI-POINT LOCK TECHNOLOGY.

A state of the art centre gearbox is at the heart of the Ingenious range - the mechanism of the lock is packed with features for complete peace of mind.

GUARANTEE

The complete range of Ingenious multi-point locks is supported by a comprehensive FIT & FORGET 10 year guarantee.

Hold back facility
An ergonomically designed hold back snib is on the faceplate to prevent accidental lock outs.

Dual follower gearbox
Designed with smooth operating, unsprung followers, the gearbox is available in two backsets, 35mm and 45mm. It also features the ability to have both front and back door applications as standard.

Smooth operation
The latest high specification materials and manufacturing techniques have been used to offer a smooth, flawless operation.

Slider technology
The gearbox has unique "slider" technology for a long lasting, smooth operation.

Auto-locking centre hook
All Ingenious multi-point locks feature a high security, auto locking centre hook.

Adaptive compression rollers
Engineered for compression and extra adjustment, all Ingenious multi-point locks have adaptive compression rollers, which engage before the locking points for smooth operation.
